Attachments: Public Soliication.GE.Attachemnt 9.seed task order.final.PDF

This its typically the tasks we need. However, we can eliminate payment of the office lease and to a certain extent office/lease management from the Scope. Also, if not included, we need split sampling and analysis for PCBs in surface water, air, sediment and biota, including lab services (if allowed under DES) and Data validation.

I can get in a word file from COE if needed.

Thanks

Dean,

Can you send us the document you were talking about describing the oversight work that is needed? Also, a short description from you discussing the tasks/skills that you view as most important would be valuable in going through this process.

Thanks
Chris

Subject: SF330 Review Table

Gentlemen,

I have attached the AEEB review table that you can use to make any notes for each of the contractors. We can fill in the evaluation factors as soon as Dean gets them. Let me know if you have any questions. Dean, I can send you the SF330s as well, but I will need the signed non-disclosure form that I sent earlier. Thanks, H
